Education

Graphic Era Hill University

Master of Computer Applications

Sep 2022 – Jun 2024

Bhimtal, Uttarakhand

Kumaun University

Bachelor of Science (P.C.M)

Aug 2018 – Dec 2021

Ramnagar, Uttarakhand

Technical Skills

Languages: C/C++,HTML,CSS, JavaScript,Java,Nodejs

Libraries/Frameworks: React.js, Redux ,Context API,Tailwind CSS,Express.js

Database: MongoDB, Firebase

Tools: VS Code, Eclipse, Dev C++, Postman,Webpack,Babel

Version Control: Github,Git

Projects

Bhojan-Bliss A Food-App | *React.js,Redux-toolkit, Parcel.js ,Google OAuth* 🔗🔗

August 2024

- Leveraged real-time data integration from Swiggy.com to deliver dynamic, up-to-the-minute user interactions.
- Architected and implemented custom hooks (e.g., useOnlineStatus, useRestaurantMenu) to optimize application performance and streamline logic workflows
- Designed and modularized reusable components such as Header, Footer, and RestaurantCard, ensuring scalability and long-term code maintainability
- Executed state management strategies using Context API and Redux Toolkit, and employed mock data to simulate production environments for rigorous testing and validation.

Movie Companion Tool-MoWeb | *Vite+React.js,Tailwind Css,Redux,Tmbd Api* 🔗🔗

Jan 2023

- MoWeb, an advanced web application, serves as the ultimate movie companion, revolutionizing how users access and engage with cinematic content.
- Streamlined access to an extensive film database, encompassing everything from timeless classics to the latest releases, across diverse genres and languages.
- Engineered a user-centric interface with a focus on usability and intuitive design, enhancing overall user experience and engagement.

SearchDev Backend | *Nodejs,ExpressJS, MongoDB, Postman* 🔗

October 2024

- Developed a Tinder-like feature with RESTful APIs for user interactions, including sending, accepting, and rejecting connection requests
- Increased security by 55% through JWT-based authentication and bcrypt for password hashing, ensuring robust protection of user data
- Optimized the user feed and connection request system, improving the efficiency of request handling with paginated data and real-time updates.

Experience

Zidio Development

August 2024 – September 2024

Web Development Intern

Remote

- Developed responsive web interfaces using React, HTML, CSS, and JavaScript for a full-stack job portal.
- Collaborated with a team of 6 to troubleshoot React components, ensuring code quality and best practices.
- Contributed to code reviews and sprint meetings, offering feedback to enhance project outcomes.

Leadership / Extracurricular

- Organized and executed campus-wide events, such as workshops and quizzes , enhancing the academic and social experience for over 60+ attendees.
- Authored a review paper titled "Enhancing Trust in Online Transactions: A Comprehensive Analysis of E-Commerce Security Measures", analyzing current security measures in e-commerce and their impact on trust and transaction safety.
